

## TOWN HALL BUILDING DEMOLITION OPTION **F**

The options of tearing down the existing Town Hall, presuming that the land it is sitting on is more valuable for parking or a new building than it is in its current condition, was considered.

If the basis of this option was purely economic, it is possible that this solution makes the most sense. However, this building has contributed to the history of Middlesex and, being older than 50 years, it could qualify for nomination to the National Register of Historic Sites.

As such, much discussion would have to take place in order to weigh the pros and cons of any proposal that would involve tearing down the building. Because there are potential alternate uses for this building, even if it is no longer used as a town gather space, it seems more reasonable to consider an adaptive reuse of this building.
