INDEPENDENT AUDITOR'S REPORT

Board of Selectmen Town of Middlesex, Vermont Middlesex, Vermont 05602

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Middlesex, Vermont, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Town of Middlesex, Vermont basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

Board of Selectmen Town of Middlesex, Vermont

Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Middlesex, Vermont, as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Middlesex, Vermont basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements.

Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated November 4, 2015, on my consideration of the Town of Middlesex, Vermont internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Middlesex, Vermont internal control over financial reporting and compliance.

The Town revenue was down 10.0% from the prior year and expenses were down 0.3%.

Overview of the Financial Statements

Management's Discussion and Analysis introduces the Town of Middlesex, Vermont basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements.

Government-wide Financial Statements

The Town annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the Town overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of these government-wide statements is the Statement of Net Position. This is the Town-wide statement of financial position presenting information that includes all of the Town assets and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town as a whole is improving or deteriorating. Evaluation of the overall economic health of the Town would extend to other nonfinancial factors such as diversification of the taxpayer base in addition to the financial information provided in this report.

The second government-wide statement is the Statement of Activities which reports how the Town net position changed during the current fiscal year. All current year revenue and expenses are included regardless of when cash is received or paid. An important purpose of the design of the Statement of Activities is to show the financial reliance of the Town distinct activities or functions on revenue provided by the Town taxpayers.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The Town uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the Town most significant funds rather than the Town as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation.

The Town has one kind of fund:

Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the Town governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources during the year and balances of spendable resources available at the end of the year. They are useful in evaluating annual financial requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financial decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenue, Expenditures, and Changes in Fund Balances provide a reconciliation to the government-wide statements to assist in understanding the differences between these two perspectives.

Notes to the Basic Financial Statements

The accompanying notes to the basic financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

Financial Analysis of the Town Funds

As discussed, governmental funds are reported in the fund statements with a short-term inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$542,834. Of this total, \$171,402 was unassigned indicating availability for continuing Town service requirements.

Major Government Funds

The General Fund is the Town primary operating fund. The fund balance of the General Fund decreased by \$36,227.

General Fund Budgetary Highlights

For the year ended June 30, 2015, the taxpayers approved the budget for the General Fund of 1.074,417. This was up 0.3% over the previous year budget of 1.071,553. Actual expenditures for the year ended June 30, 2015 were more than the budgeted expenditures by 67,463.

Capital Assets

The Town investment in capital assets net of accumulated depreciation as of June 30, 2015 was \$1,844,097. The Board of Selectmen has set a cost of \$5,000 as the minimum amount of an item to be classified as a capital asset of the Town. The Town had four purchases meeting that level during the year ended June 30, 2015.

Long-Term Debt

At the end of the fiscal year, the Town had long-term debt outstanding of \$913,540. This debt is expected to reach maturity in November, 2029.

Contacting the Town Financing Management

This financial report is designed to provide a general overview of the Town finances and demonstrate the Town commitment to public accountability. If you have questions about this report, or would like to request additional information, contact the Town finance department at 5 Church Street, Middlesex, Vermont 05602.

TOWN OF MIDDLESEX, VERMONT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUE, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2015

Total Net Changes in Fund Balances - Governmental Funds	\$ (36,583)
 Current year long-term debt principal payments reported as expenditures in the Governmental Funds financial statements are shown as a reduction in long-term debt in the government-wide financial statements. 	138,564
 Depreciation is not recognized as an expense in the Governmental Funds since it does not require the use of current financial resources. The effect of the current year's depreciation is to decrease net position. 	(110,846)
 The change in deferred revenue, excluding deferred revenue relating to grants, is eliminated within the government-wide financial statements. 	(9,131)``
 Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their useful lives and recorded as depreciation. 	202,310
 The proceeds of debt issuances provides correct financial resources to Governmental Funds but issuance of debt increases long-term liabilities in the Statement of Net Position. 	(187,639)
6. Changes in net pension liability and related pension source deferred outflow and deferred inflow of resources do not provide or require current financial resources and, therefore, are not included in the Governmental Funds financial statements.	701
Change in Net Position of Governmental Activities	\$ <u>(2,624</u>)

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Middlesex, Vermont (the "Town") is a public entity operating under the applicable laws and regulations of the State of Vermont. It is governed by a five member Board of Selectmen elected by registered voters of the Town.

The financial statements of the Town have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The GASB is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its codification if the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (statements and interpretations), constitutes GAAP for governmental units.

Reporting Entity

The Board of Selectmen (the "Board") is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. There are no component units included within the reporting entity.

Town-Wide and Fund Financial Statements

The Statement of Net Position and the Statement of Activities are Town-wide financial statements. They report information on all of the Town of Middlesex, Vermont nonfiduciary activities with most of the interfund activities removed. Governmental activities include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenue. The Town has no business type activities that rely, to a significant extent, on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function. Program revenue include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenue are reported instead as general revenue.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Town-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenue and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenue in the accounting period in which it becomes both measurable and available and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmetered interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The Town considers all revenue available if it is collectible within 60 days after year end.

Revenue from local sources consist primarily of property taxes. Property tax revenue and revenue received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenue is recorded as revenue when received in cash because it is generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenue until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the Town to refund all or part of the unused amount.

Fund Accounting

The Town reports the following major governmental funds:

- General Fund The General Fund is the Town primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
- 2. Cemetery Fund During 2004-2005, the Cemetery Association approved turning over its funds to be maintained by the Town. These monies are to be used for upkeep to the cemetery.
- 3. Paving Fund The Paving Fund was established to account for monies to be used on large paving projects on Town roads.

Investments

Investments with readily determinable fair values are reported at their fair values in the financial statements. Realized/unrealized gains and losses are included in revenue and expenditures.

Capital Assets

Capital assets which include land, buildings, furniture, and equipment are reported in the applicable governmental activities column in the Town-wide financial statements. Capital assets are defined by the Town as assets with an initial individual cost of \$5.000 or more and an estimated useful life in excess of one year.

Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset life are not capitalized.

All assets that meet the above criteria have been reported in the financial statements except for infrastructure assets. The Town is reporting infrastructure assets beginning with those acquired during the year ended December 31, 2004. Infrastructure assets acquired in prior years are not reported in these financial statements.

Capital assets of the Town are depreciated using the straight-line method over the following estimated useful lives:

Infrastructure and Bridges - 40 Years Buildings - 40 Years Highway Equipment and Dump Trucks - 10 Years Cars and Light Trucks - 5 Years

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Budgets

The administration and finance office of the Town are responsible for preparing the annual revenue and expenditures budgets. This budget is presented to the Board of Selectmen and once the Board has adopted the budget, it is sent to the voters of the Town. The budget is voted on annually in March.

Net Position and Fund Balance

Town-Wide Financial Statements

When the Town incurs an expense for which it may use either restricted or unrestricted net position, it uses restricted net position first unless unrestricted net position will have to be returned because it was not used. Net position on the Statement of Net Position includes the following:

Investment in Capital Assets, Net of Related Debt - The component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted - The component of net position that is legally restricted for specific purposes.

Unrestricted - The difference between the assets and liabilities that is not reported in Net Position - Invested in Capital Assets, Net of Related Debt, or Net Position - Restricted.

Governmental Fund Financial Statements

In the fund financial statements, governmental funds report fund balances as follows:

Nonspendable Fund Balance - The nonspendable fund balance classification includes amounts that cannot be spent because they are either (1) not in spendable form, i.e.; inventories or prepaid amounts (2) legally or contractually required to be maintained intact.

Restricted Fund Balance - Fund balances are reported as restricted when constraints by outside sources or provisions are placed on the use of the resources.

Committed Fund Balance - These fund balances represent monies that must be spent on specific purposes. These amounts cannot be expended for any other purpose unless the government removes or changes the specified use by taking the same type of action, i.e.: legislation, resolution it employed to previously to commit these amounts.

Assigned Fund Balance - These amounts are for constraints by the government's intent to be used for specific purposes but are not restricted or committed.

Unassigned Fund Balance - These monies are not restricted or committed and have not been assigned to other funds. These monies are available for budgeting in future periods.

Liability for Compensated Absences

Employees of the Town of Middlesex, Vermont are granted sick leave and vacation leave in varying amounts. Employees can only utilize sick leave when sick and are not compensated for unused sick days. Employees are reimbursed for unused vacation days when terminating employment with the Town. Vacation pay is charged to operations when taken by the employee.

Note 2: CASH DEPOSITS

The Town of Middlesex, Vermont invests its funds in interest-bearing accounts. The depository bank places approved pledged securities in a collateral pool sufficient to cover the Town deposits in excess of the amount of deposits insured by the Federal Deposit Insurance Corporation (FDIC).

At June 30, 2015, the carrying amount of the Town deposits (cash, certificate of deposits and savings accounts) was \$476,528 and the bank balance was \$477,301. These amounts were covered by FDIC or collateralized as follows:

	Carrying Amount	Bank <u>Balance</u>
Insured (FDIC) Uninsured - Collateralized Uninsured - Uncollateralized	\$272,864 203,544 120	\$273,757 203,544 0
Total	\$ <u>476,528</u>	\$ <u>477,301</u>

Deposits and investments at June 30, 2015 consisted of the following:

Cash on Hand	\$ 120
Demand Deposits with Financial Institut	ions <u>476,408</u>
Total	\$ <u>476,528</u>

Note 3: <u>INTERFUND RECEIVABLES/PAYABLES</u>

As of June 30, 2015, interfund receivables and payables that resulted from interfund transactions were as follows:

	Due from Other Funds	Due to Other Funds
General Fund Cemetery Fund	\$ 5.284 0	\$ 24 1,820
Other Governmental Funds: Records Restoration Grant Fund Other Funds	24 0 0	0 1,850 <u>1,614</u>
Total	\$ <u>5,308</u>	\$ <u>5,308</u>

Note 4: CAPITAL ASSET ACTIVITY

Capital asset activity for the year ended June 30, 2015 was as follows:

	Beginning Balance	Additions	Retirement	Ending Balance	
Buildings and Improvements Equipment and Trucks Infrastructure Land	\$ 983,581 969,137 313,837 528,300	\$ 0 202,310 0 0	\$ 0 73,646 0	\$ 983,581 1,097,801 313,837 528,300

Total				\$ <u>110,846</u>	

Note 5: <u>LONG-TERM OBLIGATIONS</u>

At June 30, 2015, the Town of Middlesex, Vermont had the following long-term obligations outstanding:

Highway Equipment Note Payable to the Merchant's Bank, Annual Principal Payments of \$5,870, Interest at 2.95%.	\$ 23,480
Highway Equipment Note Payable to the Merchant's Bank, Annual Principal Payments of \$2,000, Interest at 2.85%.	10,000
Highway Equipment Note Payable to the Merchant's Bank, Annual Principal Payments of \$6,000, Interest at 2.23%.	30,000

Highway Equipment Note Payable to the Merchant's Bank, Annual Principal Payments of \$23,658, Interest at 2.95%.	\$ 94,631
Highway Truck Note Payable to the Merchant's Bank, Annual Principal Payments of \$29,007, Interest at 2.95%, Matures 2019.	116,029
Highway Truck Note Payable to the Merchant's Bank, Annual Principal Payments of \$19,700, Interest at 2.23%, Matures November, 2016.	39,400
Fire Station Construction Bond Payable to the Vermont Municipal Bond Bank, Variable Annual Principal Payments, Net Interest of 4.19%, Matures November, 2029.	600,000
Total	\$ <u>913,540</u>

Annual debt service requirements are as follows:

For the Year Ending June 30,	<u>Principal</u>	Interest	_Total_
2016 2017 2018 2019 2020 2021-2025 2026-2030	\$126,235 126,235 106,535 106,535 48,000 200,000 200,000	\$ 32,487 29,112 25,626 22,483 19,262 70,345 24,393	\$ 158,722 155,347 132,161 129,018 67,262 270,345 224,393
Total	\$913,540	\$ <u>223,708</u>	\$1,137,248

Changes in long-term obligations were as follows:

Outstanding Obligations - July 1, 2014	\$ 864,465
Additions of New Debt	187,639
Repayments	(138, 564)
Outstanding Obligations - June 30, 2015	\$ <u>913,540</u>

Note 6: ACCOUNTS RECEIVABLE

Accounts receivable represents monies owed to the Town at June 30, 2015 and consisted of the following:

State of Vermont	\$ 1,850
Non-Governmental Entities	
Total	\$ <u>3,464</u>

Note 7: PROPERTY TAXES

The Town is responsible for assessing and collecting property taxes for the Town School District as well as for the Town itself. Property taxes are assessed based on valuations as of April 1, annually. Property taxes are due in two equal installments on September 15 and February 15. The Town allowed a 1.5% discount if taxes were paid in full by August 20. All payments after the above dates are subject to interest charged at 0.7% per month. All taxes delinquent at February 15 are assessed an 8.0% penalty.

For the year ended June 30, 2015, property taxes were assessed and accounted for as follows:

Municipal Property Valuation Tax Rate	\$1;970,057 X .4231	
Municipal Property Taxes Billed		\$ 833,531
Homestead Property Valuation Tax Rate	\$1,443,399 X 1.6328	
Homestead Property Taxes Billed		2,356,782
Non-Homestead Property Valuation Tax Rate	\$ 528,756 X 1.5846	
Non-Homestead Property Taxes Billed		837,867
Total Property Taxes Billed		4,028,180
Add: Delinquent Taxes Receivable - July 1, 2014		39,141
Total to be Accounted For		\$ <u>4,067,321</u>

Accounted For As Follows:

Property Taxes Collected Discounts Allowed Abatements/Adjustments Delinquent Taxes Receivable (Taxes only) June 30, 2015	\$4,013,380 25,593 327 28,021
(Tuxes only) same co, in-	
Total Accounted For	\$ <u>4,067,321</u>
Recognition of Property Taxes:	
Property Taxes Billed Add: Deferred Revenue - July 1, 2014 Less: Deferred Revenue - June 30, 2015	\$4,028,180 26,100 18,145
Less: Taxes Collected for Town School District Less: Abatements/Adjustments Less: Discounts Allowed	3,192,656 327 25,593
Property Taxes Recognized	\$ <u>817,559</u>

Note 8: RISK MANAGEMENT

The Town is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; and injuries to employees. The Town maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Town. Settled claims have not exceeded this commercial coverage in any of the past three (3) fiscal years.

Note 9: <u>DEFERRED REVENUE</u>

Deferred revenue at June 30, 2015 is comprised of the following:

General Fund:

Delinquent Property Taxes Not Collected Within 60 Days	\$ 18,145
Penalty and Interest on Delinquent Property Taxes Not Collected Within 60 Days	2,568
Total	\$_20 <u>,713</u>

Note 10: CLAIMS AND JUDGMENTS

The Town of Middlesex, Vermont participates in a number of federal and state programs that are fully or partially funded by grants. Expenditures financed by these grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Town may be required to reimburse the grantor government.

At June 30, 2015, significant amounts of grant expenditures have not been audited but the Town believes that disallowed expenditures discovered in subsequent audits, if any, will not have a material effect on any of the individual funds or the overall financial position of the Town.

Note 11: BUDGETED DEFICIT

The Town of Middlesex, Vermont budgeted a \$15,050 deficit in the General Fund for the year ended June 30, 2015. It was the Board of Selectmen intent to utilize a portion of the fund balance brought forward from the prior year to reduce the tax request.

Note 12: SPECIAL REVENUE FUNDS - OTHER FUNDS

The fund balances of the Special Revenue Funds - Other Funds on Schedule 1 and Schedule 2 consisted of the following at June 30, 2015:

Milford Leonard Fund	\$ 9,653
Walter Kelley Park Fund	426
Total	\$ <u>10,079</u>

Note 13: FUND BALANCES - GENERAL FUND

A portion of the General Fund monies has been assigned for the following specific purposes:

Town Forest	\$ 40
Recreation	4,053
Planning	1,001
Reappraisal	55,826
Resurface Account	3,221
Total	\$_64,1 <u>41</u>

Note 14: NET POSITION RESTATEMENT

During the fiscal year, the Town of Middlesex, Vermont implemented GASB No. 68, Accounting and Financial Reporting for Pensions. As required by GASB 68, the Town of Middlesex, Vermont net position at June 30, 3014 was reduced by \$22,157 to reflect the prior year net pension liability and related deferred outflows from pension contributions made subsequent to the measurement date.

Note 15: INVESTMENTS

The Town of Middlesex, Vermont has not adopted an investment policy.

Interest Rate Risk:

Interest rate risk is that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The Town does not have any policy to limit the exposure to interest rate risk.

The Town of Middlesex, Vermont current investments consist of the following:

Money Market Mutual Funds	\$ 44
Mutual Funds	<u>121,609</u>
Total	\$121,653

Information about the sensitivity of the fair values to maturity of the investments is not reported. The mutual funds are open-ended and, therefore, are excluded from the credit risk analysis.

Note 16: PENSION PLAN

Plan Decryption

The Town of Middlesex, Vermont contributes to the Vermont Municipal Employees' Retirement System, which is a cost-sharing, multiple-employer defined benefit pension plan that is administered by the State Treasurer and its Board of Trustees.

The Plan is designed for school districts and other municipal employees that work on a regular basis and also includes employees of museums and libraries if at least half of that institution's operating expenses are met by municipal funds.

An employee of any employer that becomes affiliated with the System may join at that time or any time thereafter. Any employee hired subsequent to the effective participation date of their employer who meets the minimum hourly requirement is required to join the System.

During the year ended June 30, 2015, the retirement system consisted of 437 participating employers.

The Plan was established effective July 1, 1975 and is governed by Title 24, V.S.A. Chapter 125, by the membership of the System and the employer representatives, one elected by the governing bodies of participating employees of the System and one selected by the Governor from a list of four nominees. The list of four nominees is jointly submitted by the Vermont League of Cities and Towns and the Vermont School Boards Association.

All assets are held in a single trust and are available to pay retirement benefits to all members.

Employee membership data related to the Plan at June 30, 2014 was as follows:

Retirees and beneficiaries currently receiving benefits	2,359
Terminated employees entitled to but not yet receiving benefits	692
Active plan members	6,664
Inactive plan members	1,817
Total	11,532

Pension Benefit

The Plan provides retirement, disability, death, and survivor benefits of eligible members or beneficiaries. Benefits are based on members' years of service, age, and average final compensation. Members are eligible for retirement benefits upon attainment of ages and years of service. Members become fully vested in the retirement benefits with five (5) years of service.

The benefit payments for the Plan are calculated using a benefit formula adopted by the plan. There are four plans available to members, each requiring different contributions and benefits.

The Plan is required to provide annual increases based on one-half of the percentage increase in consumer price index but not more than 2.0% per year for Group A plans and 3.0% for Group B, C, and D plans. The contribution rates for employees and employers are established annually and vary by plans (Groups).

All employees of the Town of Middlesex, Vermont are covered under Group B. The employee contribution rate was 4.75% and employer rate of 5.375% of covered wages. For the year ended June 30, 2015, covered wages were \$209,563. Employee contributions were \$9,954 and the Town of Middlesex, Vermont contributions were \$11,264.

Pension Liabilities, Pension Expense/(Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the Town of Middlesex, Vermont reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2014 and the total pension liability used to calculate the pension liability was determined by an actuarial valuation as of that date. The Town of Middlesex, Vermont proportion of the net liability was based on the Town's share of contributions in the Plan relative to the total contributions of all participating employers. At July 1, 2014, the Town's proportion was .0812 percent.

For the year ended June 30, 2015, the Town recognized pension expense of \$10,563. At June 30, 2015, the Town reported deferred outflows and deferred inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net Difference Between Projected and Actual Investment Earnings		\$ 22,857
Changes in Proportional Share of Contributions		2,450
Employee Contributions Subsequent to the Measurement Date	\$ 11,264	
Total	\$ <u>11,264</u>	\$ <u>25,307</u>

The \$11,264 reported as deferred outflows of resources related to pension results from the Town's contributions made subsequent to the measurement date will be recognized as an addition to the pension expense or reduction of the pension plan revenue in the year ending June 30, 2016.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expenses/(revenue) as follows:

Year Ending June 30,	
2016 2017 2018	\$ (8,435) (8,436) (8,436)
Total	\$ <u>(25,307</u>)

Actuarial Assumptions

Actuarial assumptions of the Vermont Municipal Employee Retirement System involves estimates of the reported amount and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Significant Actuarial Assumptions and Other Inputs Used to Measure the Total Pension Liability:

Measurement Date	July 1, 2014
Valuation Date	July 1, 2014
Expected Return on Investments	8.23%
Salary Increases	5.0% Per Year
Inflation	3.0% to 3.25% Per Year
Cost of Living Adjustment	1.5% to 1.80%

Mortality Assumptions

Active Participants - 50.0% of the probabilities in the 1995 Buck Mortality Tables for Males and Females

Non-Disabled Retirees and Terminated Vested Participants - The 1995 Buck Mortality Tables with No Set-Back for Males and One-Year Set-Back for Females

Disabled Retirees - RP 2000 Disabled Life Tables, Beneficiaries, 1995 Buck Mortality Tables for Males and Females

Long-Term Expected Rate of Return

The long-term expected rate of return on System investments are determined using best estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation), developed for each major asset class using an econometric model that forecasts a variety of economic environments and then calculates asset class returns based on functional relationships between the economic variable and the asset classes.

These best estimate ranges were combined to produce forecasts of the short, intermediate, and long-term horizons by weighting the expected future nominal rates of return by the target asset allocation percentage. The various time horizons in the forecast are intended to capture more recent economic and capital market conditions as well as other plausible environments that could develop in the future over economic cycles. To reflect this in the rate of return assumption, a select and ultimate assumption setting approach, which is cited in Section 3.8.4 of Actuarial Standard of Practice No. 27 as an alternative to a simple assumed rate of return, is employed.

Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of July 1, 2014 are summarized in the following table:

Asset Class	Target Asset Allocation	Long-Term Expected Rate of Return
Equity	31.50%	6.70%
Fixed Income	33.00%	2,94%
Alternatives	15.50%	6.26%
Multi-Strategy	20.00%	5.98%

Nominal long-term expected rates of return for these asset classes are equal to the sum of the expected long-term real rates and the expected long-term inflation rate of 3.0%.

Discount Rate

The discount rate used to measure the total pension liability was 8.23%. The projection of cash flows used to determine the discount rate assumed that contributions will continue to be made in accordance with the current funding policy.

Based on these assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments to current System members.

The assumed discount rate has been determined in accordance with the method prescribed in GASB 68.

The following presents the entities share of the net pension liability calculated using the discount rate of 8.23 percent as well as what the proportionate share would be if it was calculated using a discount rate that is one percent lower (7.23%) and one percent higher (9.23%):

Discount Rate	Proportionate Share of Net Pension Liability/(Asset)
1.00% Decrease (7.23%) 8.23%	\$ 62,447 \$ 7.413
1.00% Increase (9.23%)	\$(38,759)

The Vermont Municipal Employee Retirement System does not issue stand-alone financial reports but instead are included as part of the State of Vermont Comprehensive Annual Financial Report (CAFR). The CAFR can be viewed on the State of Vermont Department of Finance and Management website at:
